PLAYER PROFILE

Jake is a very accomplished natural athlete, he is a former Commonwealth Games decathlete and has now switched to become a professional AFL player with the GWS Giants.

A World Youth Athletic Championships Gold Medallist in 2011, Jake grew up playing soccer and athletics, and has also been courted by Rugby League teams over the past few years. "I've always wanted to run, jump, kick and tackle and play. When I stopped playing soccer and concentrated on athletics in 2009 I was very happy. But I gradually started missing being in a team environment. It's hard flogging it out on your own compared to training with teammates." Jake says.

Outside of football Jake loves a round of golf with friends and is a big soccer fan, supporting Liverpool FC. He is very excited about his AFL career, having only started following AFL closely in recent years he is determined to extend his athleticism to footy.
